

When using handheld WIRELESS 5 (sensitive to feedback):

Located on the charger on top of cabinet in sacristy

Needs to be TURNED ON (unscrew it and use tiny button to turn on - screw back tight) Place in stand between the rail and piano

Leave on during the service - MUTE/UNMUTE as needed.

AFTER SERVICE:

Turn off (unscrew it and use tiny button to turn off - screw back tight)

Return to charger on top of cabinet in sacristy

Two connectors face the front of the charger

Use the piece of cardboard to secure mic in charger - red light on side will come on when charging.

LiveStream Listener

Wear headphones as soon as LiveStream begins and do not remove until service is over.

When adjusting livestream settings make sure not to move MASTER slide - MASTER slide should always be at 20.

SUGGESTED SETTINGS:

#5 - Prior to service beginning (just want to hear quiet chatter - not what people are saying)

10 (all the way at the top) - Choir Introit

10 (all the way at the top) - Bells

10 (all the way at the top) - probably when choir is singing

5ish - Pastor and Lauren's wireless mics

When the organ is playing will require quite a bit of adjustment

When congregation is singing/praying we want to hear them

Adjust sound to what you would want to hear if you were watching the LiveStream.
